General information. The mission of the Journal of the Association for Music and Imagery is to promote knowledge and understanding of the Bonny Method of Guided Imagery and Music and its adaptations for those trained in the method and for related professionals. To this end, the Journal publishes original research that advances knowledge of theory, applications, and outcomes of the Bonny Method of Guided Imagery and Music (GIM) and related methods. Articles may reflect any form of research, including quantitative, qualitative, theoretical, philosophical, and case studies.

Submission. Manuscripts may be submitted at any time of the year. Manuscripts should be sent to the Editor as an email attachment in Word format. The address for submission is as follows: mckinneych@appstate.edu

Author identification. Because this journal employs an anonymous review process, the name of the author and any other identifying information should be included only on the title page of the article. The author’s name, affiliation or other identifying information should not be used elsewhere in the manuscript, including text and headers.

Originality. Manuscripts should not have been previously published in any written format, including other journals or books. By submitting a manuscript, authors certify that neither the article submitted, nor a version of it, has been published or submitted for publication elsewhere. Authors of manuscripts accepted for publication agree that exclusive rights to publish, reprint, and distribute the article have been assigned to the Association for Music and Imagery.

Submission process. The manuscript should be in Microsoft Word. The Editor will acknowledge receipt of the manuscript. The Editor will notify the author of the results of the review, usually within 2-3 months after receipt.

Editorial style. The Journal of the Association for Music and Imagery follows the style guidelines of the most recent edition of the Publication Manual of the American Psychological Association (APA). Authors are advised to consult this manual for style issues related to scholarly writing. Additional considerations include the following:

1. An Abstract of 100 to 150 words is required.
2. Figures must be referenced in text. Submit each figure on a separate page with its approximate placement indicated in the text. Photographs will be required in TIFF or JPG format prior to publication. Scans must be halftones of at least 300 dpi for inclusion in the journal.
3. The Reference List should include all and only those sources cited in the text. The APA Publication Manual outlines the specific reference format.

Copyright transfer. Upon notification of acceptance, authors will complete a form certifying ethical conduct and granting AMI the copyright and license to publish the manuscript.
